

Turnitin® and ANGEL®

Turnitin's Integration for ANGEL Users

WHY TURNITIN?

- Recognized around the world as the standard in online plagiarism prevention.
- Turnitin currently protects over 9.5 million students in over ninety countries from thousands of universities, colleges, and high schools.
- Our in-house version of the Internet contains over 6.6 billion pages, and we add and update millions of pages daily.
- Turnitin currently receives and processes tens of thousands of student submissions per day.
- Submitted papers are compared not only against live Internet pages, but also against academic and professional content not available on the public internet, including millions of commercial pages from books, newspapers, and journals.
- Students and instructors can submit papers in a variety of formats, including Microsoft Word®, PDF, PostScript, WordPerfect, plain text, HTML, or any text-based document via cut and paste.

ENHANCED INTEGRATION

Turnitin, an ANGEL Learning Application partner, now offers integration with the ANGEL Learning Management Suite. Once integrated, the Turnitin dropbox gives ANGEL users convenient access to Turnitin's suite of learning tools including Plagiarism Prevention and GradeMark™, all without leaving the familiar ANGEL environment.

PROVEN PLAGIARISM PREVENTION

Integrating with Turnitin's world-renowned plagiarism prevention system makes identifying unoriginal work easy. Turnitin's Overall Similarity Index helps you determine instantly what portion of a student paper matches outside sources. If a paper contains plagiarized material, the Originality Report will help you investigate any suspect passages.

REVOLUTIONARY ONLINE GRADING

The Turnitin dropbox also lets you grade student papers within ANGEL using GradeMark, our revolutionary online grading system. GradeMark is fast and efficient, paper-free, and gives your students the critical feedback necessary for improving writing skills. The dropbox even provides students single-click access to their graded papers from the ANGEL student view.

GRADES KEPT IN SYNC

Installing the Turnitin dropbox doesn't mean you have to change how you track grades within ANGEL, because the Turnitin dropbox integrates seamlessly with the ANGEL gradebook application. Any grades you enter from Turnitin appear automatically in your ANGEL gradebook, giving you easy access to your class grades within both applications.

"By presenting the actual paper the student plagiarized, I could stop all the excuses immediately and move on to the most important thing: academic honesty. I worked with this student for the rest of the semester. He was diligent about bringing drafts and getting papers done on time. I failed him on the plagiarized paper but his final grade was a B, which he had earned through his own hard work. I consider this a success story."

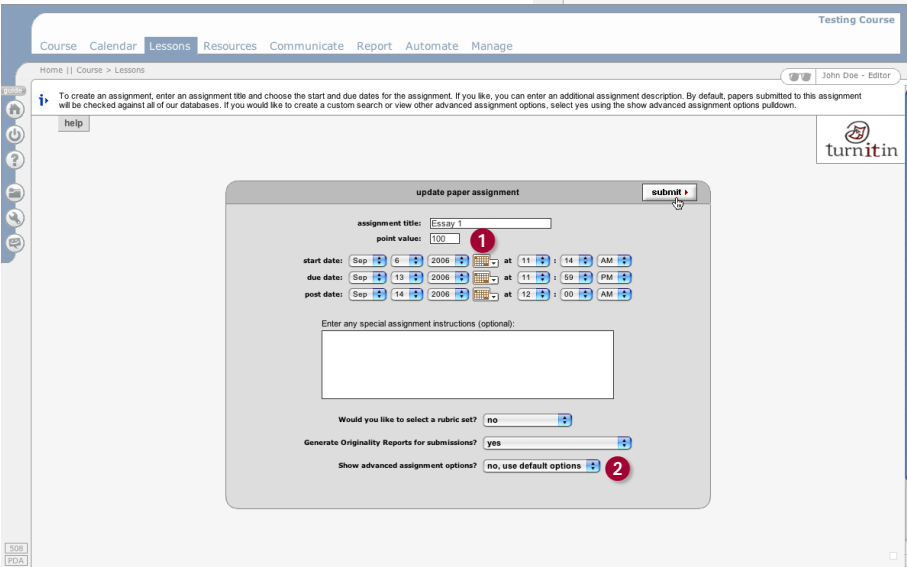

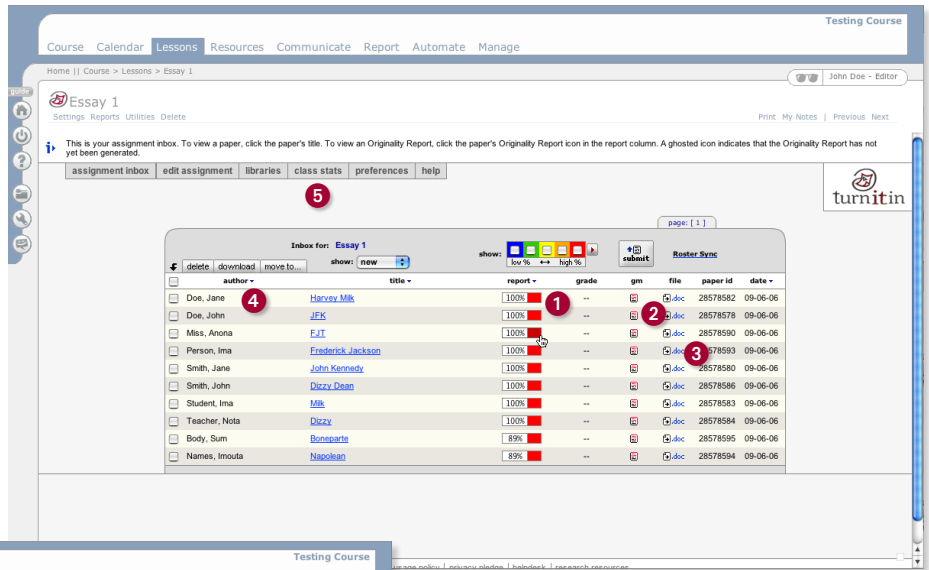

—Martha Alston
Central Carolina Technical College

BEST OF BOTH WORLDS

You rely on ANGEL to manage your courses and you trust Turnitin's proven track record of promoting academic integrity in the classroom. With the Turnitin dropbox, you can use the best of Turnitin's suite of learning tools seamlessly within ANGEL.

Familiar Interfaces

The inbox for a ANGEL Turnitin assignment closely resembles the inbox Turnitin users are familiar with. From the inbox you can access Originality Reports and view report scores **1**, grade a paper with GradeMark **2**, or download a paper in its original file format **3**. A new feature of the inbox allows you to see all students in your class, including those who have not yet submitted a paper **4**. Clicking the class stats link gives you detailed statistics on class activity and submissions **5**.

Creating Assignments

The page for creating a Turnitin assignment within ANGEL is almost identical to the Turnitin assignment creation page. From this page, you can enter a point value for an assignment **1** or view advanced assignment options **2**, where you can choose to give students access to their own Originality Reports. The advanced assignment options also allow you to customize your search criteria, allowing you to search against certain sources and ignore others.

Features

Familiar ANGEL and Turnitin interfaces

Proven plagiarism prevention

Online grading with GradeMark

Integration with ANGEL and Turnitin gradebooks

Easy to setup and customize

Benefits

If you are a ANGEL user and have used Turnitin before, there is nothing new to learn.

Turnitin's world-renowned plagiarism prevention system is a proven deterrent to plagiarism and can help stop plagiarism before it starts.

Our revolutionary new online grading system saves time and helps instructors provide students with constructive feedback faster than ever before.

All grades entered in Turnitin automatically flow into the ANGEL gradebook, ensuring that your grades are always in sync.

Your administrator installs the dropbox on your ANGEL server. After installation course builders can add Turnitin assignments to their classes.

Since 1996, Turnitin has been helping millions of faculty and students in over ninety countries improve writing and research skills, encourage collaborative online learning, ensure originality of student work, and save instructors' time.
